Integrated scanning and document capture

Making Web-based report distribution a reality

A single solution to capture and view reports and scanned documents and images

Advanced Image Router software send document automatically (Lab Reports, Admission Sheets) or prompts users for information (ID cards, misc docs)

Most documents handled automatically via state of the art OCR and forms recognition engines

Advanced options allow routing of images and/or data via email or fax

Up to 10,000 documents/day with minimal hardware

Cost effective and highly scalable

Minimal user training

Process...

- Insurance Id Cards
- Lab Reports
- Insurance Id Cards
- Admission Records
- EOBs
- HCFA & UB92 Claims
